Profile

Undergraduate student at Zhejiang University majoring in Biomedical Engineering, with strong bilingual communication skills in Chinese and English. Experienced in AI-assisted research, AI search, prompt writing, content creation, presentation design, and basic coding with the help of modern AI tools such as ChatGPT, DeepSeek, Claude Code, and Cursor. I am detail-oriented, reliable, and good at understanding client requirements quickly. I can communicate clearly, deliver structured work, revise based on feedback, and use AI tools to improve efficiency while maintaining quality. I am especially interested in freelance tasks related to AI-assisted writing, research, translation, data organization, presentation design, web prototypes, and content evaluation.

Education

Zhejiang University Sep. 2023 – Jun. 2027
B.Eng. in Biomedical Engineering | College of Biomedical Engineering and Instrument Science Hangzhou, China
• GPA: 3.90 / 4.0
• Relevant coursework: Signals and Systems, Circuit and Electronic Technology, Microcomputer Principles, Engineering Graphics, General Chemistry

Core Strengths for Freelance Work

- **Strong Communication:** Able to understand requirements, ask clear questions, provide progress updates, and revise work according to client feedback.
- **AI-Assisted Productivity:** Heavy user of AI tools for research, summarization, writing, coding, translation, idea generation, and workflow automation.
- **Research & Information Analysis:** Skilled at searching, comparing, summarizing, and organizing information from different sources into clear and usable outputs.
- **Content Writing & Presentation:** Experienced in writing project materials, research summaries, social media content, and creating structured PowerPoint presentations.
- **Bilingual Ability:** Native Chinese speaker with strong English reading, writing, translation, and oral communication skills; CET-6 600+, CET-4 550+.
- **Responsible Delivery:** Detail-oriented, self-motivated, patient, and able to complete tasks independently under deadlines.

Skills

AI Tools	ChatGPT, DeepSeek, Claude Code, Cursor, AI search tools, prompt writing, AI-assisted coding, AI-assisted research, content polishing.
Writing / Research	Academic research, literature review, product research, competitor analysis, report writing, content summarization, information extraction.
Coding / Web	Basic Python, HTML, CSS, JavaScript; able to build simple web pages, small demos, scripts, and prototypes with AI assistance.
Office Tools	PowerPoint, Word, Excel; skilled in presentation design, document formatting, data organization, and structured writing.
Languages	Chinese: Native; English: CET-6 600+, CET-4 550+, good reading, writing, translation, and communication skills.

Project Experience

- AI-Assisted Coding and Web Prototype Practice** 2025 – Present
- Use AI coding tools such as Cursor, Claude Code, ChatGPT, and DeepSeek to build small web pages, mini-program prototypes, and personal demos.
 - Practice the full workflow from requirement description, page structure planning, code generation, debugging, UI adjustment, to deployment.
 - Built a personal GitHub portfolio to organize AI-assisted coding projects, reusable prompts, and project documentation.
- National Innovation Competition Projects | Participant / Presenter** May 2025 – Jul. 2025
- Participated in intelligent medical device and assistive technology projects; responsible for literature research, product research, competitor analysis, and presentation materials.
 - Used AI tools to support information retrieval, document summarization, research organization, PPT creation, and content polishing.
 - Served as the project presenter in national-level competitions, developing strong public speaking, logical expression, and quick-response skills.
 - Awards: National Second Prize in Intelligent Assistive Technology Innovation Competition; National First Prize in

Biomedical Engineering Innovation Design Competition.

Social Media Content Operation | Project Leader

Jul. 2024

- Led a Zhejiang University social practice project; responsible for planning, field research, content collection, final report, and presentation.
- Operated a Xiaohongshu account and created Vlogs and posts, gaining practical experience in audience-oriented communication and content planning.

Leadership Experience

Student Union of Yunfeng College, Zhejiang University | Minister of Arts Department

Sep. 2024 – Jun.

2025

- Planned and organized large campus events including singing contests and music festivals, serving 4,000+ participants.
- Responsible for event planning, promotional copywriting, material preparation, process coordination, and on-site execution.

Awards

- Zhejiang Provincial Government Scholarship
- National Second Prize, Intelligent Assistive Technology Innovation Competition
- National First Prize, Biomedical Engineering Innovation Design Competition
- Outstanding Team Award, Zhejiang University Summer Social Practice Project

Freelance Service Areas

- AI-assisted writing, research summaries, translation, content polishing, product research, competitor analysis, presentation design, data organization, AI search evaluation, simple web prototypes, and AI-assisted coding tasks.
